A Woman's Great Idea

is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wrinkled complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate stomach, liver and kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c at all dealers.

Tom Underwood, Harry Sommers and Charley Meachem, three pencil pushers down in the Jackson purchase and thereabouts, are endorsing Barksdale Hamlett for State Superintendent of schools.

Unless somebody bobs up in this end of the state for the same position THE HERALD will in all probability be in line for him. He is a young man of fine appearance and scholarly attainments as well as a simon pure undehled Democrat and has at his back a record of which any individual would be proud. But Eastern Kentucky may bring out a man equally as well qualified and then our allegiance points to him.

Of Interest to Teachers and Trustees.

The state superintendent in a circular letter to county superintendents has made some rulings which are of importance to teachers and trustees. They are as follows:

Applicants cannot take the examination in one county and have the papers forwarded to another county for grading, except State Normal pupils in counties where these schools are located.

All applicants for certificates must be eighteen years old before the examination is held. If the applicant becomes eighteen afterward he should not be permitted to enter.

The county superintendent should revoke the certificate of all who fail to attend the full session of the institute.

The law does not say you "may" revoke, it says you "shall" revoke.

All teachers whether principals or assistants, who teach in a district or sub-district having seventy-five or more pupil children, should hold certificates of the first class; and every sub-district reporting more than one hundred pupils must employ two teachers for the full term of six months, or they cannot be apportioned the per capita on more than one hundred.

All teachers in graded schools must hold first class certificates.

The Newspaper of Today.

A newspaper has to today to some people and recognize what they do as the correct thing whether it is right or not if it wants to keep on good terms with them, and it must agree with them in almost everything, political or otherwise. The Record is not that kind of a makeshift, but believes in advocating the things that are for the best interests of the mass.

es, letting the chips fall where they may.—Newton (Miss.) Record.

Commenting on this the Woodville (Miss.) Republican says: "The paper, the editor of which waits to see the expression of the public on any question before giving expression to an opinion, and who lets another do his thinking, or is as putty in the hands of the 'local lords,' is not worth any name that it may bear. An editor must be fearless, honest and just, with the courage of his conviction and the will to do his duty without regard to the consequences. Nothing is more contemptible in the eyes of men than the little editor who is ever ready and willing to bow to the will and command of some 'prominent citizen' who happens to have a few sheekles of the filthy lucre and a little influence." May the Lord have pity upon such parasites on the kump of creation."

A SAD EVENT.

Ernest Elkins Instantly Killed Saturday by Road Machine.

In carrying out its contract with the Fiscal court, the Clark County Construction company has been engaged for some time in reconstructing the Lexington Pike near the Fayette line. A large traction engine and roller draw a train of cars loaded with crushed rock. The stone is delivered through the bottom of the car, the delivery being controlled by a crank on the side of the car, between the front and rear wheels.

Saturday afternoon, Ernest Elkins, an employee of the company was manipulating this lever when his foot was caught by the hind wheel, which passed over his body, crushing out his life.

The remains were brought to the undertaking establishment of H. H. Hall, and after being prepared for burial were taken to his home in this city. The funeral was held at the Washington street Presbyterian church, Sunday afternoon, under the auspices of the Local Camp Modern Woodmen of America, assisted by Hickman Lodge of Odd Fellows, he being a member of both orders. Services were conducted by Rev. C. E. Crafton, pastor of the church. The funeral procession was an extremely long one and attested the esteem in which he was held.

He was raised in Mt. Sterling and was 33 years of age. He was a son of Wm. Elkins, formerly of this county, and has a great many relatives here. He leaves a wife, formerly Miss Ringo, and two daughters, aged twelve and nine years. He carried one thousand dollars insurance in the Woodmen. The trip when he was killed was to have been his last trip on the road, as he was to have taken a position in the yards on the following Monday. The sympathy of our people go out to the family.—Winchester Democrat.

H. C. Herndon Wants \$15,000.

Deputy Revenue Collector H. C. Herndon, of Ashland, has brought suit against Omar Dotson, a wealthy real estate man of Mayville, for \$15,000 damages which the deputy claims that he sustained some time ago by having fallen through an elevator shaft in one of Mr. Dotson's buildings in that city.

It appears that Mr. Herndon was attempting to gain an entrance to a cigar factory that was located in the building, where he had official business, and while attempting to do this he fell and sustained the alleged injuries.—Catslettsburg Tribune.

Mr. Herndon was formerly a resident of Hazel Green and will be remembered by many of our older citizens, having been postmaster here at one time.

Predicts Severe Quake In June.

New Orleans.—Lieutenant John C. Sole, in charge of the United States Hydrographic Office at New Orleans, who recently attracted considerable attention through his predictions of seismic disturbances, declared that unless some of the volcanoes, such as Vesuvius, erupt, there will be further earthquakes.

While he could not predict, he said, where the next disturbances will occur, he declared that judging movements of the past in accordance with present indications, the next earth tremor would probably be felt between the dates of June 15 and June 25.

Lieutenant Sole also issues a warning to coal miners to exercise the greatest care, as disastrous explosions in mines, owing to subterranean disturbances, are likely to occur during the period stated.

Another Breathitt Killing.

Jackson, June 13.—Miles Crawford is dead, Clay Crawford is dying here of a fractured skull, and Elisha Johnson is in the Breathitt county jail on a charge of murder following a fight near Athol Saturday night.

The trouble arose between Clay and Miles over a woman, and Clay got the worst of it. Johnson took Clay's part, and, according to his own story, shot and killed Miles.

He says he shot to save Clay's life. The Crawford's were only distantly related, if at all. Clay is the son of Steve Crawford, a prominent merchant, and a nephew of Sheriff Breck Crawford.

Home Paper Interesting.

The home paper is always interesting to you, whether you take it or not, says the Cuba, (Kans.) Daylight. Some people who do not take the paper, borrow it from their neighbors, and while this inconvenience the neighbors and themselves, it cannot help, but make us feel proud that they really care enough for our paper to walk half a mile each week to get it and to also save three cents. It shows that these people are economical and that when our advertisers put an ad in our paper they will be sure to read it carefully and take in all the bargains.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Richmond, Va., June 3. Spencer Cooper, Hazel Green, Ky. Dear Mr. Cooper: Since writing you last we have come to Richmond and would like to have THE HERALD sent here.

We have been here one week and are enjoying it very much. Richmond is a grand old city. It is well named the "City of Spikes." There are many historical places of interest, among them are the battle fields of the civil war. We have a church here in the city where we hope to remain until September of this year, when we will return to Livingston, Tenn., where we worked last year.

We wish it were possible to drop in and enjoy an hour with you. Your services in the mountains have been invaluable. I know your labor has not been in vain. I hope you may have many more years in which to carry on your great work.

Mrs. Long sends regards to Mrs. Cooper.

Stock Sale Day.

Yesterday was the regular stock sale day at Hazel Green, but recognizing the fact that farmers are behind with their work, THE HERALD did not urge attendance. Wednesday, July 13, will be our next sale day and there will be people in attendance from Letcher, Perry, Knott and Magoffin counties. It will be a gala day for stock dealers as stock of every kind will be on hand. If you want to see the biggest crowd that ever assembled in a mountain town, come to Hazel Green that day. Or maybe you had better come a day ahead to be sure of accommodation, or write and reserve a room at some hotel. There will be no circus on hand nor flying machine to see, but people will be here as flies around a molasses barrel.

Mrs. Sam Kash and her sisters, Misses Nancy and Sarah Sample, accompanied by a crowd from Campton, had an enjoyable outing at Natural Bridge Tuesday. Quite a crowd from Jackson, including the Presbyterian Sunday school, were there, as well as President Crossfield, of Transylvania University.

W. W. Taylor, Cynthia, and V. M. Smith, Cincinnati, representing the International Harvester Co., Chicago, were registered at the Hazel Green Hotel Tuesday, and the register also contained the names of R. H. Bryan, Winchester; A. H. Cundiff, Jackson; and Vernie C. Clark, Mt. Sterling.

None on the Market.

Luther Murphy, of Mt. Sterling, was here yesterday trying to buy hogs, but the farmers generally were so busy that our monthly stock sale was not attended by but few. Next month we will have a big crowd and a lot of stock of all kinds. Wednesday before the third Monday is the day, and people from Magoffin, Perry and Letcher will be here to dicker in horse trades, and it will not surprise many people if Ross Oliver is on hand with a few horses. Don't forget day and date, as the circus bills read, and you will see lots of people and a heap of fun.

We have answered this cry in our new book, "Fighting the Traffic in Young Girls," by Ernest A. Bell, U. S. District Attorney Sims and others. The most sensational indictment of the White Slave Trade ever published. It tells how thousands of young girls are lured from their homes annually and sold into a life of shame. KENTUCKY KERNELS

Carefully Collated and Concisely Chronicled.

Hon. Swager Sherley, congressman from the Fifth district, has been renominated to succeed himself.

The first annual assembly of the Kentucky Conference Epworth League will be held in Mt. Sterling, June 23-26.

In the re-adjustment of salaries of postmasters throughout the country, the postmaster at Winchester now receives \$100 per year more.

Ten thousand dollars is the amount of the reward offered for the arrest and conviction of Joe Wendling, the accused murderer of Alma Kellner.

Rowdies broke into a tent show in Pike county one night recently and killed three men. The rowdies were followed and more trouble is feared.

Governor Willson last week issued a Fourth of July proclamation to the people of Kentucky and urges them to celebrate the "Glorious Fourth" in a sane and safe manner.

Out of sixty-two applicants for teachers' certificates in Greenup county, recently, there were only six failures. Twenty-one were first class, twenty-seven second class and five third class.

A three story warehouse belonging to H. F. Hillenmeyer & Son, the well known nurserymen of Fayette county, was destroyed by fire with a loss of about \$2500. Carelessness of an employe is said to have been the cause.

By the breaking of a large water main in Louisville the lives of ten men were imperiled and a property loss of \$10,000 sustained. The men were working in a nearby sewer and were pulled to safety by companions with lowered ropes.

Probably the highest price ever paid for an acre of land in Scott county, if not in the state, was given by Robert Alexander Witson when he purchased a portion of the farm owned by Otis Ashurst. The price paid was \$1,200 per acre.

Fire destroyed a large part of the town of Hyden, in Leslie county, last week. The office of the Thousandsticks, the postoffice, three stores and several residences were consumed. Part of the courthouse was badly damaged. The origin of the fire is thought to be incendiary.

A mob composed of citizens of South Louisville threatened to lynch Robert Anderson, a negro, who had made advances toward Joe Scherle, an 8-year-old white boy. The negro was caught by the police, who forced back the angry citizens, who clamored for the life of Anderson. The negro was lodged in jail.

Workmen were procuring rock from a cliff near Pompey, in Pike county, when in a small cave they came across the skeletons of a man and a woman. The clothing was well preserved, the man being dressed in a corkscrew suit. The woman wore a corset which had been pierced by bullets. There was also a woman's hat.

One of the most startling suicides that ever occurred in this section occurred last week at the home of Alfred McIntosh, at Athol, a station on the L. & E. railroad near Jackson, when Mrs. McIntosh procured her husband's shotgun and placing the muzzle under her chin, in a fit of jealousy, fired. The woman's face and the greater part of her head were blown away.

Wallace Sellers, a young man of Morgantown, started out on a regular "wild west" rampage the other night, and before he was landed behind the bars of the Union county bastille he had cut a swath that would have made a typical bad man from Arizona envious. In addition to cutting aforesaid swath he also cut the arm of the sheriff from the elbow to the wrist, inflicting a painful and dangerous wound.

"Boone Day" was appropriately observed in Frankfort on the 7th inst., by the Kentucky Historical society. As Governor Willson was unable to be present W. W. Longmoor, an officer of the society, presided at the meeting, held in the Historical Rooms at the new Capitol. Alex Johnson read a paper on "Tall Tale Histories." John Wilson Townsend, of Lexington, and Mrs. Jennie C. Morton also read papers.

Obert Garner has a hen that made a nest one day last week in the shop. When she came off there were two soft-shelled eggs. Doubting her ability to lay two eggs a day, the hen convinced them the next day of her power by laying in the same nest two ordinary-sized eggs well developed except they had soft shells with a tube about two inches long and the size of a lead pencil completely fastening the eggs together, one on each end, so tight if you picked up one you got them both—Odessa cor. AMERICA'S GREATEST WEEKLY.
THE
TOLEDO BLADE,
TOLEDO, OHIO.
The Best Known Newspaper in the United States.
CIRCULATION, - - - 200,000
Popular in Every State.

The seventy-fourth year of its existence finds the Toledo Blade more popular than at any period of its remarkable career. It is now read each week by more than a million people. Its field is not circumscribed by State boundaries, but involves the length and breadth of the United States, giving it an unquestionable right of claiming to be the greatest national weekly newspaper in the country.

The Weekly Blade is distinctly a family newspaper. The one object of its publishers has always been to make it fit for the American home, for the fireside, and of interest to every member of the family. To fulfill this purpose it is kept clean and wholesome. The news of the world is handled in a comprehensive manner, and the various departments of The Blade are edited with painstaking care. The Household page is a delight to the women and children; current affairs are treated editorially without prejudice; the serial stories are selected with the idea of pleasing the greatest number of fiction lovers; the Question Bureau is a scrapbook of information; the Farmstead columns are conducted with the purpose of giving the patrons a medium for the exchange of ideas and information on farm topics. No department is neglected, but every feature is taken care of with the idea of making The Blade worth many times the price of subscription—one dollar a year. Sample copies mailed free. Schoolboy "Howlers."
The schoolboy "howler" is always popular. The following selections from a large number which were sent in for a prize competition arranged by the University Correspondent are excellent examples of the mistakes which pupils perpetrate:
Woman's suffrage is the state of suffering to which they were born. The world is an obsolete spheroid.

Lord Raleigh was the first man to see the Invisible Armada. Shakespeare founded "As You Like It" on a book previously written by Sir Oliver Lodge. Tennyson wrote "In Memorandum."

King Edward IV. had no claim by geological right to the English throne. The capital of Russia is St. Petersburg on the Douma. The test act of 1673 was passed to keep Roman Catholics out of public houses.

Henry I. died of eating palfreys Louis XVI. was gelayated during the French Revolution. The Rhine is boarded by wooded mountains. Gender shows whether a man is masculine, feminine or neuter. James I. died from argus.

An angle is a triangle with only two sides. Algebraic symbols are used when you don't know what you are talking about.

Geometry teaches us how to bisex angles.

Parallel lines are the same distance all the way and do not meet unless you lend them.

The whale is an amphibious animal because he lives on land and dies in the water.

A parallelogram is a figure made of four parallel straight lines.

The Saint Makers.
A preacher said: "You editors dare not tell the truth, your newspapers would fail." The editor replied: "You are right; and the minister who will at all times, tell the truth about his members, living or dead, will not occupy the pulpit more than one Sunday, and he will find it necessary to leave the town in a hurry. The press and the pulpit go hand in hand with whitewash and kind words. Magnifying small virtues into larger ones, the pulpit, press, and gravestones are the great saint-making triumvirate." The great minister went away looking very thoughtful, while the editor turned to his work telling about the surpassing beauty of the bride, when, in fact, she was as ugly as a mud fence.—Ex.

The Greatest Need of Our Times.
Addressing the Cloverport High School a few days since, Father C. Brey wisely said:

"The question may be asked: What is the greatest need of our times for the betterment of Christian society? It is churches. Temples of worship are very necessary. The construction of well-adorned houses of worship is an evidence of the faith and devotion of the people. But they are not the most essential thing for our day. The primitive Christians paid homage to God in the catacombs, and some of our forefathers adored the Lord under the canopy of heaven, in secluded mountains, and in caves of the earth; and they were the best of Christians. Moreover, what would be the use of churches if we had no worshippers to frequent them. What the times call for is men and women, sturdy, Christian men and women, endowed with the courage of their convictions. We need men who are controlled by conscience rather than expediency, men who are guided by principle rather than by popularity, men who are influenced by a sense of duty and not by self-interest, who are swayed by a spirit of patriotism rather than by a desire for political preferment. In a word, we need men and women of upright Christian character."

Lame shoulder is almost invariably caused by rheumatism of the muscles and yields quickly to the free application of Chamberlain's Liniment. This liniment is not only prompt and effectual, but in no way disagreeable to use. Sold by all dealers.

All is Vanity.

Man is of few days and many growls. When the spring time comes, gentle Annie, and the rain waters the earth, he complaineth because of mud, and a few weeks later his soul is grieved because of the exceeding muchness of the dust. In the winter he cryeth because it is too cold, and in summer he would fain join an Arctic expedition that he may escape from the summer heat. When the sun shines brightly it hurteth his eyes, and when it hideth behind a cloud it gives him the blues. When the wind bloweth he curseth the cyclone, and when it does not blow joy departeth from him and he moaneth. Oh, give us a breeze. Yes, verily, there is nothing which satisfieth man. He cometh into the world crying, leaveth it grumbling. And this, too, is vanity.

What is probably the most novel church ever built was erected at Peoria, Ill., by 190 members of the congregation of the Central Christian church. Work was started at 8 o'clock in the morning, and services were held in the completed edifice in the evening.

TAKE CARDUI

The Woman's Tonic

Mrs. Verna Wallace, of Sanger, Tex., tried Cardui. She writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.
